Child Haven

To Whom It May Concern:

I am writing at the request of Vicki Stoecklin to offer my strongest level of a reference for her work. She mentioned that you will be building a new Treatment and Child Development Center in Greenville, SC. Ms. Stoecklin has a terrific sense of providing the very best space for children and their families while being particularly savvy in her business sense for those creating the space and buildings. She is a joy to work with as I have learned on several collaborative projects we have shared. She's offered outstanding consultation to many of our Easter Seals program staff on how to best design and use their space.

Vicki is particularly good on working with architects to help them achieve true child centered designs, resulting in wonderful spaces and places for children. Her excellent sense of planning floor designs, outdoor play areas, and an overall customer friendly flow to the building make her the ideal space consultant for any project. In addition to these fine spatial and design skills, she also possesses a terrific understanding and appreciation for the bottom line and will work with you well to achieve the right outcomes in all areas.

It is my significant pleasure to recommend her work and I would be happy to answer any questions you might have in the future.

Sincerely

A handwritten signature in blue ink, appearing to read "Bob Siegel".

Bob Siegel  
National Director, Children's Services
